SITUATION SUMMARY

National News – Significant Events

Bodies found after 2 aircraft go down off Los Angeles coast

Divers recovered two bodies and wreckage of a plane off the coast of Los Angeles Sunday, the county sheriff's department says. The bodies will be identified by the medical examiner's office. Two small planes went down Friday, after what could have been an in-flight collision. A total of three people may have been aboard the two aircraft. The search operation continues Monday. Authorities discovered a log book that helped them identify one of the planes and people on board -- two men, ages 61 and 81. Another plane, believed to be piloted by a 72-year-old woman, was expected to arrive at Torrance airport Friday but never showed, the U.S. Coast Guard says. One of the aircraft was a Beechcraft and the other was a Super Decathlon, a plane that's often used for aerobatic stunts. The incident occurred near the community of San Pedro, south of downtown Los Angeles and just west of Long Beach.

International News – Significant Events

Airport workers seen with laptop used in Somalia in-flight jet blast

Somali intelligence officials say two airport workers handled a laptop containing a bomb that later exploded in a passenger plane. In a video made public on Sunday by officials, one airport worker takes the laptop and hands it to another employee. The employees then hand it over to a man who was killed when the laptop explosion blew a hole in the plane's fuselage, said Abdisalam Aato, a spokesman for the Somali Prime Minister. Both workers have been arrested. Somali officials identified the lone fatality as suspect Abdullahi Abdisalam Borleh. He was sucked out of the airliner through the hole from the blast Tuesday. Investigators suspect Borleh, a Somali national, carried a laptop computer with a bomb in it onto the plane, according to a source familiar with the investigation. He knew precisely where to sit and how to place the device to maximize damage, the source told CNN. Given the placement, the blast likely would have set off a catastrophic secondary explosion in the fuel tank if the aircraft had reached cruising altitude, the source said. But the explosion happened at a lower altitude, between 12,000 feet and 14,000 feet, killing the Somali national and injuring two others. Though preliminary tests showed the bomb contained a military grade of the explosive TNT, the source said, it failed to bring down Daallo Airlines Flight 3159. The pilot turned around and landed the Airbus safely in Mogadishu. "Security at our airport is strong, but we need to do more," Aato told CNN in response to concerns about airport security. "While threats will always be there, this could happen at any other airport," he said. Somalia asked U.S. officials for help with investigations, and several FBI agents are on the ground assisting in Mogadishu, the spokesman said. "This was a sophisticated attack ... so we reached out to our international partners," Aato said.

Super Bowl 50 Weather Situational Awareness

In collaboration with local, state and federal partners, the San Francisco Bay Area National Weather Service (NWS) Weather Forecast Office (WFO) will provide enhanced decision support services to Emergency Management partners in support of their public safety efforts around the National Football League's (NFL) Super Bowl 50 and events leading up to the NFL championship game being held at Levi's Stadium in Santa Clara, California.

We will continue to send out a morning email briefing to serve as a broad weather outlook for the greater San Francisco Bay Area through at least Feb 8. If updates are made, an afternoon email briefing will also be issued. Additional forecast briefings will be disseminated based on partner request and/or weather demands.

Weather Summary

- Dry conditions are expected through the next seven days. Monday will be the warmest day of the week with temperatures approaching or exceeding record highs. Temperatures will begin to slowly cool after Monday but generally remain above typical seasonal readings. Offshore or easterly winds will be in place through Tuesday then then swing around to the northwest by midweek. Local gusts between 15 and 25 mph will be possible along the immediate coast and in the hills Monday and Tuesday. Beach hazards for rip currents and large shore breaks will be in place Monday.
- Monday will be the warmest day of the week with near record highs.
- Dangerous Beach Conditions Monday: Heightened threat of rip currents and large shore break this morning through this afternoon. With the near record highs and many visitors to the area, there will be a concern for dangerous beach conditions.

7 Day Area Forecast for the Greater San Francisco Bay Area:

Today: Sunny, with highs mostly in the lower 70s. East wind 5 to 7 mph becoming north.

Tonight: Clear, with lows mainly in the upper 40s. Calm wind becoming east around 5 mph.

Tuesday: Sunny, with highs mostly in the upper 60s. Calm wind becoming north northwest between 4 and 7 mph.

Tuesday Night: Mostly clear, with lows around 50. Light and variable wind.

Wednesday: Sunny, with highs mainly in the middle 60s. Calm wind becoming north northwest between 4 and 7 mph.

Wednesday Night: Partly cloudy, with lows mostly in the upper 40s.

Thursday: Mostly sunny, with highs mostly in the middle 60s.

Thursday Night: Partly cloudy, with lows mainly in the upper 40s.

Friday: Mostly sunny, with highs mainly in the middle 60s.

Friday Night: Partly cloudy, with lows near 50.

Saturday: Mostly sunny, with highs mostly in the lower 60s.

Saturday Night: Partly cloudy, with lows mainly in the upper 40s.

Sunday: Mostly sunny, with highs mainly in the lower 60s.

SITUATION SUMMARY

Weather of Concern

Northern California

- There is currently no weather of concern for Northern California

Southern California

- Combination of strong offshore winds and low relative humidity creating critical fire weather conditions anticipated for most of Ventura and Los Angeles counties until 1800 this evening.

River Forecasts

As of 0655 hours on 02/08/16:

- All River Guidance (Flood Forecast) Points are currently below critical stages.

Active Weather Warnings, Watches and Advisories by County:

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Medford Weather:

Dry conditions low level offshore flow and above normal temperatures will persist into Tuesday. The warmest temperatures will be along the South coast and over the ridges. Mostly clear skies will prevail over most of the area.

Eureka Weather:

High pressure will bring mostly dry weather and above normal temperatures to Northwest California over the next few days. A weak front will bring the next chance for light rain late Thursday.

Reno Weather:

High pressure will bring generally light winds and unseasonably mild daytime temperatures this week. Strong valley inversions will continue today, and then weaken during the next few days as weak low pressure slowly approaches the west coast. Precipitation chances remain slim for the upcoming week.

Sacramento Weather:

There will be dry and mild weather for the interior of Northern California for the next week.

San Francisco Weather:

A strong ridge of high pressure will remain positioned over the west coast Monday resulting in the potential for record warmth across the Bay Area and central coast today. The ridge will begin to weaken tomorrow initiating a cooling trend which will bring temperatures back to seasonal norms through Valentine's Day weekend. Outside of a slight chance for rain over the North Bay Friday and Friday night, dry weather is forecast.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Hanford Weather:

High pressure will continue to bring dry weather to the Central California interior for the next several days with patchy night and morning fog in the San Joaquin valley. A day to day warming trend will bring high temperatures above normal through the middle of the week.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure and gusty offshore winds will bring well above normal temperatures with possible record temperatures through early next week. The high will weaken towards the end of the week for a cooling trend however temperatures will remain above normal.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

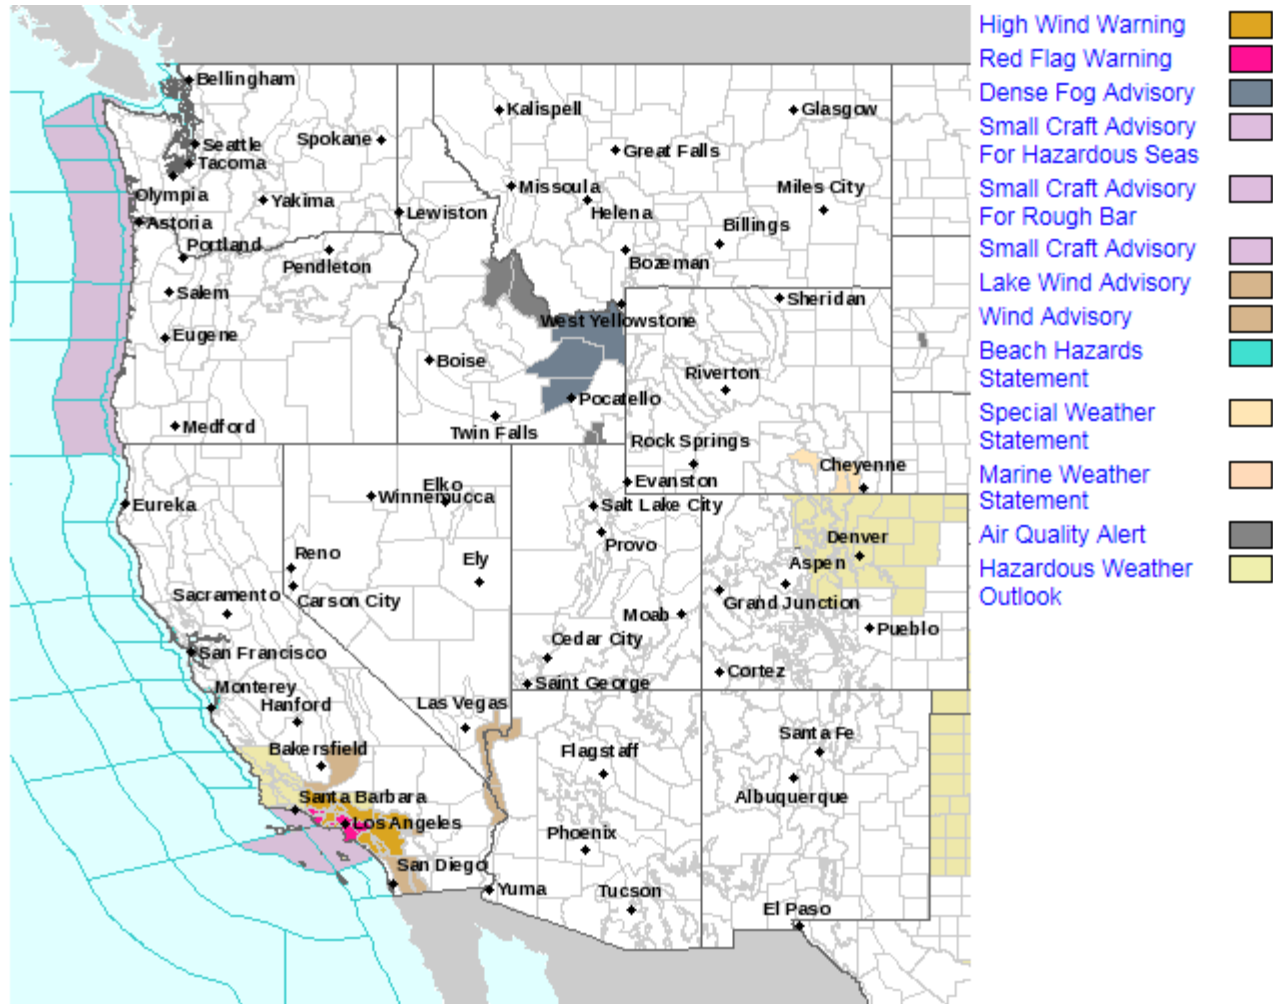

High pressure aloft over California will bring well above average high temperatures into next weekend. Surface high pressure over the great basin will bring periods of gusty Northeast winds near the coastal foothills into Tuesday strongest through this morning. Continued dry with weaker winds for the middle to latter part of the week.

Southeast California Weather:

High pressure will remain the dominant weather feature over the Southwestern United States through the coming work week. This will result in a prolonged period of sunny skies and above normal temperatures along with relatively light winds.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 63 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 29 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
